Tomiwa Kukoyi, Frontend & Software Developer

Lagos, NG | +2347083325053 | GitHub: www.github.com/tomiwakukoyi | Email: tomiwakukoyi07@gmail.com

Experience

Ambify (UK)   **Remote, Lagos, NG**
Frontend developer   May 2023 – Present

- Worked with the design team to implement the landing page design using React.js, Tailwind CSS and other modern tools.
- Collaborated with cross-functional team members, including product managers, and business stakeholders, to align project goals and deliverables.
- Actively participated in brainstorming sessions and contributed creative ideas for product features, user experience improvements, and technical optimizations.
- Ensured the web application was responsive.

Mein Sherpa (Germany)   **Remote, Lagos, NG**
Frontend developer (Volunteer)   Feb 2023 – May 2023

- I Built and maintained visually appealing, intuitive, and user-friendly and responsive user interfaces for web applications using Vue.js, Tailwind CSS and other cutting-edge tools.
- Collaborated closely with the design team to implement their designs into the codebase.
- Worked closely with the backend team to ensure seamless communication between the backend and frontend.
- Consumed API data and used them appropriately.

Linux Jobber (Nigeria)   **Remote, Lagos, NG**
Frontend developer   July 2022 – Oct 2022

- Collaborated with the interns and project manager to create new features and improve existing ones using React.js and styling tools such as Tailwind CSS and Styled-Components.
- Developed reusable code for multiple web applications, utilizing React components, hooks, and libraries using react best practices.
